Reference: 48th Lunar and Planetary Science Conference, March 20-24, 2017 at The Woodlands Waterway Marriott Hotel in Houston, Texas.

Dear Prof. AiCheng Zhang:

Thank you for your interest in participating in the upcoming 48th Lunar and Planetary Science Conference in Houston, Texas. As you know, this meeting is the premier meeting of lunar and planetary scientists from around the world, with representation from over 30 countries. Our attendance is approximately 1800 planetary scientists, including approximately 500 graduate and undergraduate students. The web site for the meeting is at <http://www.hou.usra.edu/meetings/lpsc2017>.

This conference brings together international specialists in petrology, geochemistry, geophysics, geology, and astronomy to present the latest results of research in planetary science. The conference will be organized by parallel sessions of contributed presentations that emphasize planetary processes in addition to presentations related to planetary bodies. The meeting will provide a unique opportunity for scientists from around the world to talk about the fascinating and important observations and discoveries enabled by their current, recent and planned planetary missions and related scientific activities.

We look forward to seeing you here in Houston in March.

Best regards,

Renée Dotson
on behalf of
48th Lunar and Planetary Science Conference Organizing Committee
